

Join Us for an Informational Session on UT Southwestern's Medical Physics Graduate Program

UT Southwestern's Medical Physics Graduate Program is recruiting applicants to join our exceptional program. We are hosting an informational session on **Tuesday, November 15, at 8 p.m. CST** to share more about medical physics and our Ph.D. program.

Medical physicists are scientists working at the forefront of health care applying physics, engineering, and computer science to the needs of medicine. Working in clinical or academic settings, medical physicists make substantial contributions to patient care and research through radiation therapy, diagnostic imaging, nuclear medicine, and radiation safety. Medical physicists are certified by medical organizations like the American Board of Radiology (ABR), and enjoy a booming job market with excellent compensation, benefits and job security, and a balanced clinical service/academic environment.

[UT Southwestern's Ph.D. Program in Medical Physics](#), a CAMPEP-accredited program established to train the next generation of medical physics academic and clinical leaders, is proud to offer:

- Cutting-edge research opportunities that span from AI in medicine to functional MRI-guided radiotherapy, and optical imaging to PET instrumentation
- State-of-the-art research and clinical resources, including the latest AI-computing clusters and adaptive radiotherapy modalities
- Core medical physics courses and numerous electives with topics ranging from advanced magnetic resonance imaging and machine learning to biostatistics
- Strong funding support, including 10 active NIH R01 grants and numerous industrial partnerships

We welcome applicants with undergraduate training or higher in physics, engineering, computer science, or related physical sciences to [apply for the program](#). **The application deadline is December 1, 2022.**

To learn more about medical physics and our Ph.D. program, please join a virtual information session on November 15, 2022, at 8 p.m. CST using the QR code or link below.
